08/11/2022

Resource for Ambulance Transportation

The Department has developed a resource for Ambulance Providers and the Healthcare Facilities they work with to clarify when ambulance transportation is arranged through the member's broker and when transportation is not. Please refer to the [NH Medicaid Ambulance Reference Guide](#).

The Department will be offering a thirty minute Q&A session to answer any remaining questions that providers may have in regards to coordination of transportation for a member requiring an ambulance. This session will be held Wednesday, 8/17, at 1:30 PM.

To RSVP for the session and receive the link to join, or to submit questions on the resource guide, please contact Jordan McCormick at Jordan.M.Mccormick@dhhs.nh.gov.

This resource will be included in the next iteration of the Ambulance Provider Manual as an appendix for future reference. Until then, it will be posted on the billing manual page of the MMIS.

Thank you,
NH Medicaid Provider Relations
