

Xerox State Healthcare 2 Pillsbury Street Suite 200 Concord, NH 03301

MEMORANDUM

TO: All Providers
FROM: Xerox and NH Medicaid
DATE: March 1, 2014
SUBJECT: IMMUNIZATION BILLING GUIDELINES

The New Hampshire (NH) Immunization Program (NHIP) supplies, at no cost to the provider, all childhood immunizations recommended under the Vaccines for Children (VFC) Program as soon as the vaccines become available under federal contract.

The vaccines currently provided through NHIP protect against these diseases:

- Diphtheria
Haemophilus Influenza Type B (Hib)
Hepatitis A
Hepatitis B
HPV (human papillomavirus)
Influenza
Measles
Meningitis
Polio
Mumps
Pertussis
Pneumococcal
Rotavirus
Rubella
Tetanus
Varicella (Chickenpox)

All providers located in NH are required to obtain their childhood immunization vaccines through the NHIP.

Pediatric immunization billing instructions:

The following administration codes must be reported in addition to the vaccine/toxoid codes, in order for New Hampshire Medicaid to reimburse for the administration cost.

Table with 4 columns: Code, Description, Allowable, Max Units. Rows include 90460 and 90460-U1.

*Code 90461 for additional vaccine components will not be reimbursed.

To meet the reporting requirements of immunization registries, vaccine distribution programs, and reporting systems, the exact vaccine product administered needs to be reported using the product specific CPT code.

Provider Bulletin

Xerox State Healthcare 2 Pillsbury Street Suite 200 Concord, NH 03301

For vaccines not obtained through NHIP, bill both the vaccine/toxoid code **without** the SL modifier and the appropriate immunization administration code.

If you have any questions about vaccines supplied by the NHIP, or need information on how to obtain the free vaccine, please call 1-800-852-3345 ext. 4482 (in-state only) or (603) 271-4482; or visit the program's website:

<http://www.dhhs.nh.gov/dphs/immunization>

Adult immunization billing instructions:

For adult vaccines/toxoids, bill both the vaccine/toxoid code **without** the SL modifier and the age appropriate immunization administration code.
