1. Introduction to Transaction Note Changes

This document shows differences between the transaction notes to providers in the New Hampshire Enterprise X12N 276/277 Companion Guide produced by Xerox EDI Solutions and the transaction notes in HP's version of the X12N Companion Guide. Where there is no substantial difference between the current and previous transaction guides, the rows are shaded light blue.

In the Variance Comment column, the Transaction Standard comment indicates the need to refer to the TR3 for clarification of HIPAA requirements.

2. X12N 276 Claim Status Inquiry
